ENTRY DOOR SYSTEM

SENTINEL

ENTRY DOOR SYSTEM

For centuries, Sentinels have been trusted to stand guard and protect their posts with an unwavering vigilance and commitment to the security of their station. The Sentinel Entry Door System embodies these same qualities with its enduring construction, ensuring it's always on guard and defending the home.

The Sentinel Entry Door System features a durable and weather-resistant composite frame that effectively prevents rot, decay, and water absorption through its closed cellular structure and rigid poly-fiber formulation.

Open the door to long-term performance and protection while elevating the design and value of your home.

MAKE A GRAND ENTRANCE

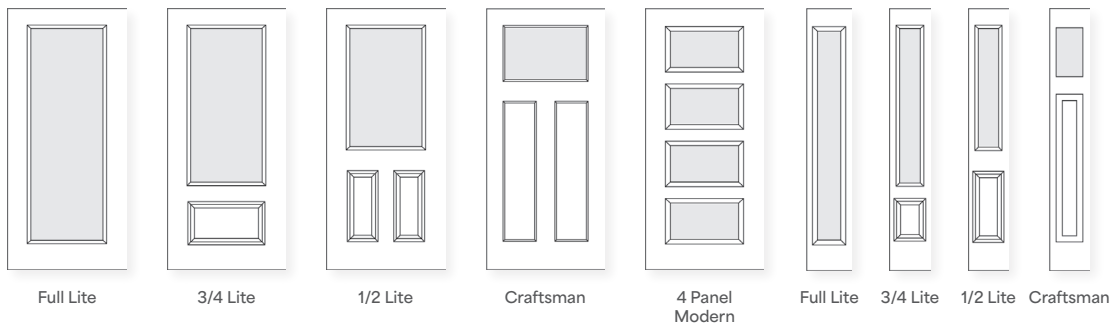

Entry Door Configurations

Don't try to fit the mold - *make the mold*. Choose from one- or two-panels, single or double sidelites and optional rectangular or elliptical transoms to create an entrance that caters to you.

Doorlite Options

Let the light in with a variety of versatile doorlite glass sizes available in Obscure, Decorative, Wrought Iron and Clear Low-E glass - tailor-made to your unique needs and taste.

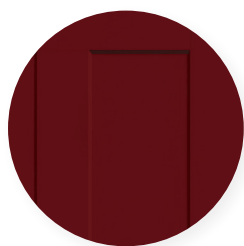

Choose Your Material

Whether you're searching for the durability of steel or elegance of fiberglass, we've got you covered.

COMPOSITE FRAME SMOOTH

Composite Frame Construction

Tested in partnership with the University of Waterloo, the Sentinel Entry Door System achieved exemplary results in water penetration resistance when compared to commonly used wood materials. The Sentinel composite frame is structurally more robust, with enhanced rigidity making it more resistant to warping, bowing and twisting.

Composite Self-Draining Sill

Effortlessly reroutes excess water and channels moisture away from the home through built in water reservoirs for an added layer of protection against the North American elements. The sill is comprised of high-quality structural composite materials and provides a sturdy stepping surface for high-traffic moisture-prone areas.

Rigorously Tested Against the Elements

The Sentinel Entry Door System achieved a combined water, air, and structural NAFS designator of **PG40**, resisting 8 inches of water driven at 80 km/h and providing continuous non-rot protection against the weathering elements.

Composite
Smooth
Texture

Continuous Weatherstripping

Prevent unwanted water and air from infiltrating your home with an uninterrupted weatherstrip seal that enhances noise reduction and improves indoor comfort year-round.

WOODGRAIN

COMPOSITE FRAME

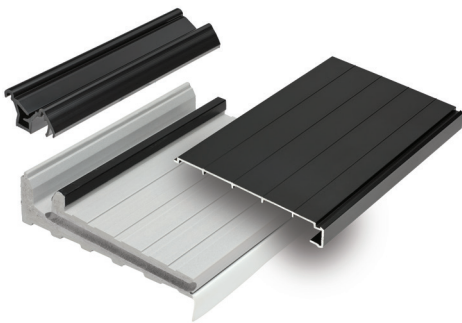

Handcrafted Woodgrain Texture

The Sentinel Woodgrain Entry Door System is virtually indistinguishable from real wood with an authentic and refined closed-grain texture - available in three signature stains.

Durable & Protective Sweep

The Sentinel sweep is comprised of an automotive-grade synthetic rubber that can withstand temperatures reaching as low as **-40° F** and as high as **+180° F** for an insulative and weather-resistant seal.

Top-to-Bottom Performance

Achieving an impressive **PG55** in structural performance on a single inswing, the Sentinel composite frame can withstand wind speeds up to **246 km/h**, equivalent to a *catastrophic category 4 hurricane*.

Polyurethane Foam Core

The Sentinel Steel, Fiberglass Smooth and Fiberglass Woodgrain Entry Door assortments are equipped with a high-performance polyurethane foam core for long-term energy-efficiency and insulating thermal resistance.

High-Definition
Steel Profile

Sentinel Steel 3/4 Lite Entry Door System in Dover Grey with 22 x 48 Mistlite Textured Glass

STEEL

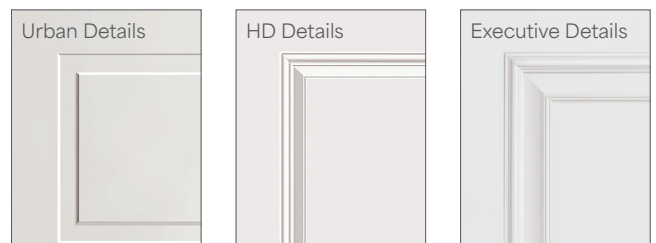

E Available with Executive Panels **8** Available in 6'8" & 8'0" heights

KEY FEATURES & BENEFITS

- **Strength:** Superior rust inhibition and polyurethane foam core
- **Security:** Solid reinforcements ensure that hardware is mounted securely on wood-edge doors
- **Durability:** Top quality 24-gauge galvanized construction offers superior durability and tested performance

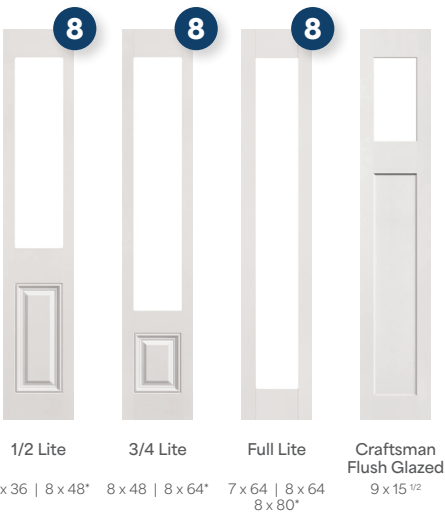

Craftsman Customizations

*Colours may vary due to printing processes or screen resolution. Photos shown are for illustration purposes only.

SMOOTH FIBERGLASS

8 Available in 6'8" & 8'0" heights

KEY FEATURES & BENEFITS

- **Durability:** Top and bottom rails are constructed from rot-resistant composite materials
- **Security:** Door stiles are constructed with engineered 2" hinge and 4" latch stiles
- **Construction:** Polyurethane foam core combined with engineered wood stiles provide superior insulation value and structural integrity, while the fiberglass skin resists dents, cracks and warping
- **Maintenance:** Incredibly low-maintenance and a long-lasting alternative to steel

Craftsman Customizations

Step Outside of the Box

Embrace the creative process of choosing an entry door colour with endless colour possibilities that both compliment and enhance your home's curb appeal. Make a statement with bold and daring colours, or create a sophisticated façade with muted neutral tones.

COLOUR YOUR WORLD

Painted Fiberglass & Steel

Maximize your curb appeal by selecting one of our popular standard finishes for your steel or fiberglass smooth entry door system, or go bold with a custom colour that complements your style and personality.

Traditional

A timeless traditional home is enhanced through refined colour selections and tailor-made accents that complement the unique history and architecture of the home.

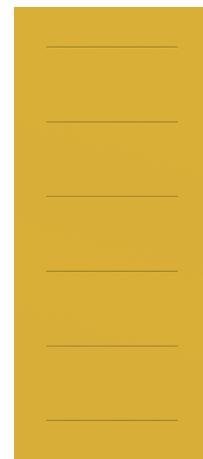

Deep reds and navy blues offer a splash of colour and lasting appeal.

Transitional

Bring out the natural charm of your transitional home through traditional colours and sleek modern finishes for a balanced and inviting entryway.

Muted colours and neutral favourites like charcoal grey and moody black create a focal-piece of sophistication.

Contemporary

A contemporary-style home accentuates crisp clean lines and a minimalistic less-is-more approach.

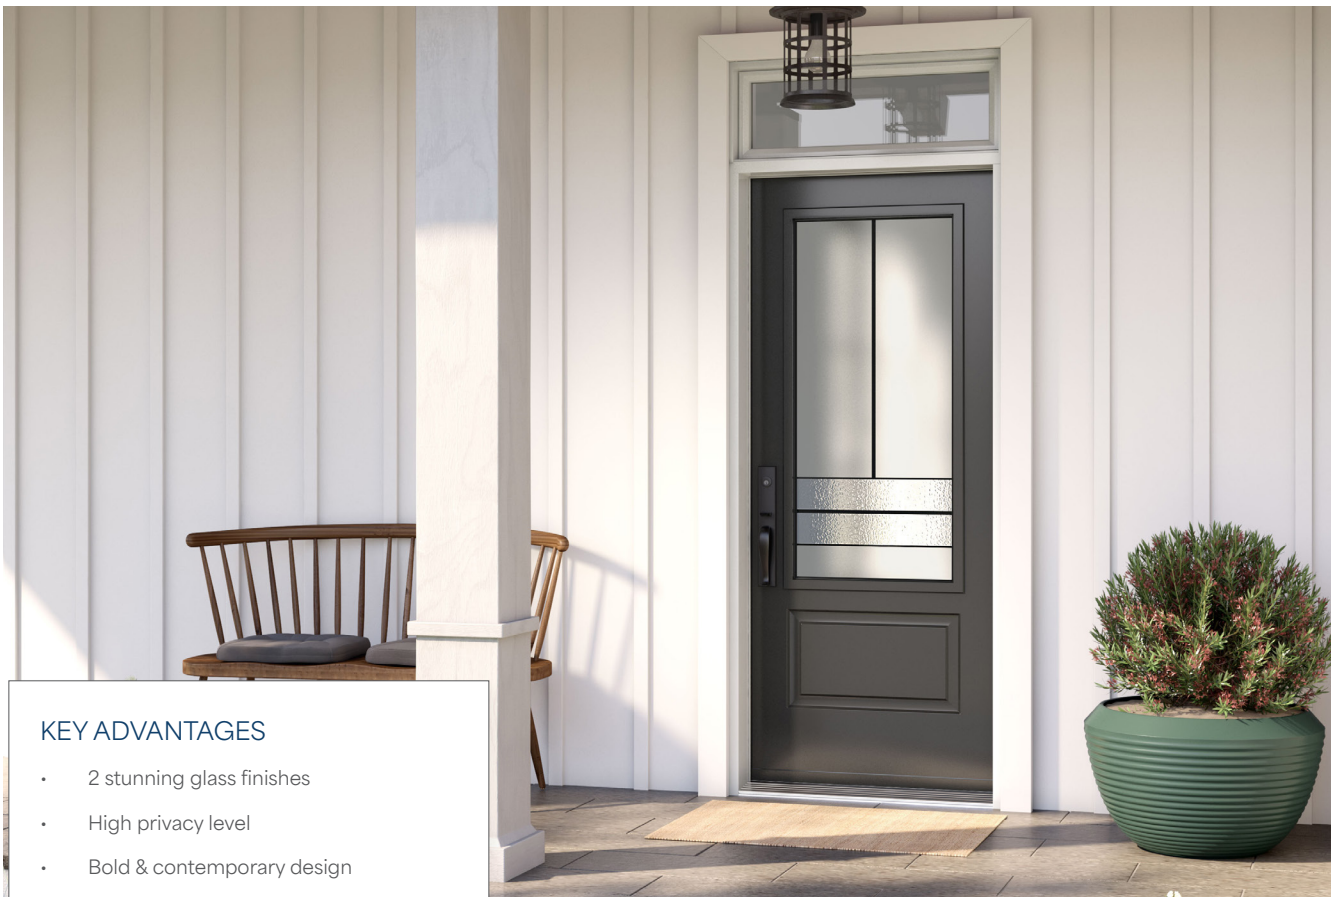

Go bold with pops of custom colour or stay neutral with this flexible and adaptive design style.
